

Deepstream — SaaS Demo Video Master Guide

Step-by-Step Production Roadmap, Storyboard & Non-ElevenLabs Audio Guide

1. Production Tooling Stack (Non-ElevenLabs)

Category	Tool	Details & Voice
Voiceover (Generated)	Microsoft Neural TTS	Voice: <i>en-US-ChristopherNeural</i> (Generated MP3)
Voiceover (Alt 1)	OpenAI TTS API	Voice: <i>onyx</i> or <i>echo</i> (\$0.015 / 1k chars)
Voiceover (Alt 2)	Play.ht	Voice: <i>Larry</i> (SaaS Promo Model)
Screen Capture	Screen Studio / OBS	4K recording with smooth cursor tracking & auto-zoom
Video Editor	CapCut / Premiere Pro	Auto kinetic captions, ambient background music (-22dB)

2. Step-by-Step Production Roadmap

Step	Action Item	Instructions & Target
Step 1	Prepare Environment	Launch local server or live landing page at <i>deepstreamofficial.netlify.app</i> in 4K/1080p resolution.
Step 2	Record Screen Scenes	Capture 5 key views: (1) Hero banner, (2) Active Trade Signals (Copper/Tuna), (3) 26-Yr Walk-Forward Track Record, (4) Telegram Pro alerts, (5) Cashfree checkout modal.
Step 3	Attach Voiceover MP3	Import the generated <i>deepstream_voiceover.mp3</i> (or OpenAI TTS Onyx model) into video editor audio timeline.
Step 4	Edit & Synchronize	Align Screen Studio auto-zooms with voiceover cues in CapCut/Premiere. Add auto-captions and ambient background music (-22dB).
Step 5	Export & Publish	Export in 1080p 60fps MP4 format for Twitter/X, YouTube Shorts, LinkedIn, and website embeds.

3. 60-Second Storyboard & Voiceover Script

Time	Scene	Visual Action	Voiceover Text
0:00 - 0:10	The Hook	Zoom from stock chart into dark globe map with ocean thermal currents	"Traditional commodity traders rely on lagging price charts... but 71% of Earth is ocean. What if ocean data held the leading edge?"
0:10 - 0:25	The Solution	Transition to Deepstream UI; auto-zoom on active signal cards for Copper and Tuna	"Meet Deepstream — the quantitative platform that converts ocean indicators into actionable commodity trade setups."
0:25 - 0:45	Track Record	Pan across 26-year walk-forward backtest chart and historical trade log	"Every signal is backed by 26+ years of walk-forward backtesting. No hindsight bias. Just raw statistical correlation."
0:45 - 0:55	Telegram Alert	Split screen showing daily position updates and Pro channel alerts on mobile	"Get full entry parameters and daily position updates delivered instantly to your private Telegram channel."
0:55 - 1:05	Call to Action	Cashfree checkout modal transition to <i>deepstreamofficial.netlify.app</i>	"Gain your unfair quantitative advantage today. Visit <i>deepstreamofficial.netlify.app</i> and subscribe to Deepstream Pro."
